

Cracow, Poland

About Me

My name is Damian Watracz and I'm passionate about creating unique, modern and functional websites and application interfaces. I help my clients to improve their business and attract new customers by providing high quality and user engaging graphic design.

I have experience with a wide range of projects - websites, WordPress themes, iPhone apps, Windows Phone apps and web applications. I work well in a team and I'm familiar with project management software like Basecamp, ActiveCollab, Assembla, Atlassian Jira and others. I make sure that I deliver organised and easy to edit or modify files.

Testimonials

“

I've had the pleasure of working with Damian on several projects over the last few months. His feedback to my product requirements and mockups has always been thoughtful and thorough, and the design concepts he returns are excellent. Damian has shown patience and flexibility by providing numerous versions of designs as we change our minds about the product requirements. My team has been pleased with all the designs Damian has provided us with.

Skylar Thomas, Product Manager Of Line2

“

If you are thinking about hiring Damian for your projects... Don't! Seriously, if you do, then I won't be able to use him!! I cannot get enough of his amazing work, attention to detail, and professional approach to each and every one of my projects. I found Damian after searching for a LONG time, as an ex-graphic designer myself I have very high standards when it comes to work of this nature. Needless to say, Damian exceeds all of my expectations which means one thing, happy clients. His work is so good I would have no problems referring him to my family! You are my secret lethal weapon... 100% honest.

Dmitriy Pisarev, Chief Marketing Officer Of Idea Box Media

“

We're lucky to have found Damian! His talent and communication has been excellent from the beginning. He's definitely the kind of designer we would hire full time.

Tim Williams, Founder Of Baumhaur Design Group

“

It was not the first trial for us in collaboration with a foreign web designer. But, we may say that it was the best experience for us. Everything was made in time and quite professional. All layers in PSD are grouped and have relevant names - it is the first time we got such well organized file - it's pleasant :) There is no doubt that we will work with Damian in future.

Audrey, Creative Director Of Emagine.ru LTD

“

You really did take our front page to the next level with your amazing and inspiring graphic artistry and we look forward to many more creative projects with you.

Paul McGowan, Internet Advertising Specialist At Arcadia SEO

“

I've hired Damian for several graphic design projects and he has produced excellent results every time. He has a great sense of design and is very talented with Photoshop and Illustrator.

Steven Snell, Founder Of Vandelay Premier

I hope we will work together on some exciting projects.
